

GREAT CAREER OPPORTUNITIES FROM PRECISION STORE WORKS

Who We Are and What We Do

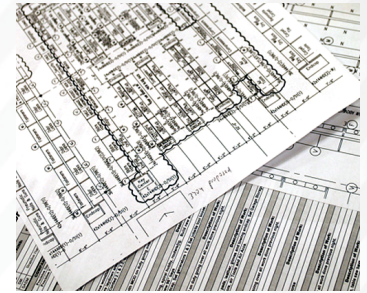

Precision Store Works is a national retail support company which has served the retail industry for over 18 years.

Our projects consist of multi-night remodels and resets in existing retail stores across the midwest states and New England. Including but not limited to, Michigan, Ohio, Indiana, Massachusetts, New Hampshire, Rhode Island, Connecticut, Maine, New York, and Vermont.

Our team members work together on demolition, construction, and merchandising in stores. This includes both the demo and the reconstruct of store racking, shelving, fixtures, displays and signage. As a team we complete projects by placing products, correctly labeling and merchandising complete departments.

Check out some of our 5 star rated reviews from Indeed.

Typical work night - fast paced, team environment, merchandising and Construction in store. Was able to learn new things on each project. I found management to be helpful and driven to succeed. Company is small so you benefit from not being *just* a crew number. Other good benefits included being recognized for going above normal work duties or for helping out extra on site. Its year round work which I like and working inside but still being able to be physical and active in construction type work.

Good company to work for. Helpful with on the job training and working with a team. Management cares for everyone its great to be known as a person, not just a number. Busy work, makes the nights go fast. Also keeps interesting with travel to new locations. Referral and hiring bonus is pretty sweet.

This is a great company to work for. Whenever I needed guidance or assistance, there was someone available to help. I truly felt like a part of a team, even with teammates I had never met. Management is understanding, directive, and most of all, encouraging.
